To: Earl Keeling / Chris Hooper  
Hooper Welding Enterprises, Ltd.

Subject: Hooper's performance on the 2007 Moses Lake Expansion Project

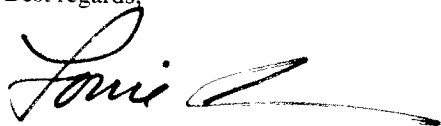

Earl / Chris,

This letter is written to express Fluor Enterprises Inc.'s appreciation for Hooper Welding Enterprises Ltd.'s outstanding performance on the 2007 Moses Lake Expansion Project.

Hooper completed 36 small, but complex high alloy vessels for the Project totaling US\$1 million. In absolute difficult market conditions, Hooper was one of the only fabricators on the Project able to meet their contractual delivery dates for the equipment. Hooper did so while not sacrificing quality or safety.

It was a true pleasure and success working with Hooper on the Project and I would highly recommend Hooper for any similar work in the future.

Best regards,

Lou DeArman  
Fluor Enterprises Inc.
